CLUFF AVENUE

CC-49

Mr. Richard Blackston, Acampo, California made the following presentation before the City Council:

"I am proposing to move 22 trees from the Griffin Industrial Park located on 705 East Cluff Avenue to Guild Avenue.

If not moved from their present site, they will be destroyed. These trees are estimated to be between 100-120 years old. Many consider these trees to be part of the history of Lodi and would be an asset to the appearance of the community if relocated.

I have spoken to Charlene Lang of Hutchins Street Square who would like to have four olive trees placed at that facility. The remaining trees hopefully, will be placed at various Lodi School sites.

Time is of the essence on this project, as the construction site work begins this week. The trees need to be removed as soon as possible. Any help you could provide would be greatly appreciated. I hope you will share my interest in saving these trees to beautify the community."

The City Manager was asked to meet with Mr. Blackston regarding his request for the City's assistance in moving the subject trees.
